DETAILED ACTION

Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not anticipate nor make obvious applicant's claimed invention. Specifically, the closest prior art reference, US 5660159 issued to Clayton discloses:
 - a. a housing 11 with an inlet and outlet;
 - b. a launch station (forward part of gun as shown in Fig. 1 that houses projectile 36);
 - c. a crank 15;
 - d. a plurality of resilient actuating paddle 20 (the paddle is inherently "resilient" and is inherently capable of deflection even if only on a microscopic level);
 - e. a post 21 arranged in the path of the paddles.

However, Clayton differs from the claimed invention because the paddle(s) are not "sized to extend into the launch station". In Clayton, the paddle(s) are located in an enclosed area behind what would be considered a "launch station".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited on form PTO-892 are cited as of interest to show similar
4.
